The Centre of Dreams and Hopes (CDH) is a non-profit community organization based in Montreal, Quebec.

Founded in September 2006, our mission is to offer therapeutic and recreational programs to children and young adults diagnosed with an intellectual and/or physical disability, autism spectrum, Downs syndrome, William syndrome and other genetic deficiencies.

The CDH Foundation subsidizes a portion of the cost of the programs offered by the Centre of Dreams and Hopes in order to help alleviate the burden on the parents of these special needs children and young adults.

Our fundraising events permit us to successfully offer, maintain and add new programs that are critical to the well-being of children & adults with developmental challenges and for their families. Donations over the past years have enabled us to offer services such as speech therapy, occupational therapy, social skills, early intervention, and the integration in our two summer day camps, a respite program and an adult education school program.

As the demand for our services & associated costs increase year after year, we can only achieve our goals with the support of generous donors and participation in our fundraising activities.

We are pleased to inform you that the CDH Foundation will be hosting its annual fundraiser Gala on
